Subject: RECOMMENDATION LETTER

To Whom It May Concern:

This letter serves to express my personal recommendation regarding the ministries of Buses International, U-Go International, and Antioch International. I have been involved with these ministries since 2002. The trips have been well organized and have afforded me a wide range of ministry activity including personal ministry and growth in many areas.

I have been primarily involved in the missions trips and special project ministries. One notable item that impresses me is the integrity and accountability for the funds that are provided to these ministries from the donors. The funds are handled in a manner that insures that the greatest number of people can benefit.

On one of the trips I have taken, I was also involved with a dental team. This ministry provided dental care to a large amount of people and also afforded a team of student hygienists to gain some very valuable experience and satisfaction from their work.

I personally highly recommend all areas of these ministries without reservation because I have witnessed firsthand the primary goal being reached—changed lives. Through these ministries my own ministry has grown, changed and expanded. What a blessing!

Respectfully,

Dr. Michael T. Goodling, D.Min.
